Projects:

URL	Monthly active users	Techs I've used	Description
alightmotion.com	5M(100M+ downloads)	NodeJS/Typescript, VueJS, GCP, Python, Terraform, FFmpeg, FireStore	Mobile Video Editor app. I used to make from production features to developers and support tools.
vtoura.com	2k(B2B users)	ThreeJS, AWS, Laravel, NodeJS, RDBMS	Virtual Tour creator for all kinds of businesses. I was part of backend and frontend optimization.

You can imagine me as a loud nerd. I never hesitate to go the extra mile(or kilometer^^) to communicate properly. I've been working remotely since 2017 from my home country to 4 different time zones.

Skills:

Tinkering - From fixing file libraries to fixing bugs in frontend, I like to solve problems.

Team Playing - You can ask almost all of my previous colleagues.

Learning - I always tune my skills to keep up to date.

Broad technical knowledge - From writing CSS without looking up(mostly) to work Image/Video optimization in Backend with various languages and technology.
